

# ÖSB Consulting GmbH

## Mission Statement

---

### **We develop future-oriented solutions for the world of work**

As a flexible company, we are prepared for innovation as we face up to socio-political challenges in the labour market, as well as in the fields of employment, education and social inclusion. We actively and pre-emptively work in order to reach future-oriented solutions.

### **We act in an international network on an interdisciplinary level**

Our employees are networked on a national and international level. They consult, research, develop and manage projects with a high competence for processes and solutions. We consult and service our clients and customers in an individual, competent and professional manner. We guarantee a high level of reliability and just in time services.

### **We consult our clients on an individual basis und focus on strengthening their self-management skills**

We are demand-oriented, self-dependent, prepared to reflect, and place a lot of value on open communication. We see ourselves as systemic advisors endeavouring to help improve our clients' level of competency and self-management. We expect the same high level of quality from our cooperating partners, sub-contractors and suppliers.

### **We lead our teams oriented towards the needs of our coworkers and requirements of gender and diversity approaches**

Respectful and valued interaction with our employees shapes the management style of ÖSB Consulting GmbH as well as the commitment to gender mainstreaming and diversity management in human resources development. Our clients and customers benefit from continuous know-how training of our employees, as well as services and processes.

### **We pursue a sustainable company development strategy**

Due to carefully-selected, long-term financial politics and business politics, the associates of ÖSB Consulting GmbH ensure the lasting development of the company.

Vienna, January 2008

Mag. Albert Trattner (Manager)
